STREAMLINING COMPLIANCE: MANAGING BUREAU CHANGES THROUGH AUTOMATION

Staying updated with bureau changes is crucial for insurance companies. Non-compliance carries significant risk of adverse consequences, including legal issues and financial penalties. Here are insights from our insurance compliance services team on how to use time-saving automation tools like Bureau Monitor to reduce the risk of slipping into non-compliance.

NAVIGATING RISING INSURANCE PREMIUMS: EXPLORING FOUR ALTERNATIVE OPTIONS FOR BUSINESSES

In today's volatile market, businesses often face the challenge of rising insurance premiums, which can significantly impact their bottom line. In this blog, we delve into four viable options we have identified over decades of actuarial consulting: self-insuring, forming a captive insurance company, creating a risk retention group or risk purchasing group, and starting a traditional insurance carrier.

MGA LICENSING: IT'S NOT WHAT YOU THINK

The term "Managing General Agent (MGA)" is used frequently in the insurance industry – but not always correctly. Misclassification is more than just a semantic error. This article outlines the true definition of the term and what is required to become licensed as an MGA.

HOW IS A "LOSS PICK" DERIVED? (AN ACTUARY'S PERSPECTIVE)

The term "loss pick" is used very loosely in the insurance industry and is not well defined. The expert actuaries at Perr&Knight are here to clarify the definition and provide more insight into how loss picks are derived. Learn more in this blog.
