NEW IDEAS FOR SUPPLEMENTAL HEALTH

In today's fast-paced, digital world, there are more options than ever for employers to purchase their Workers' Compensation ("WC") insurance. With so many options available for employers to shop for WC coverage, it is more important than ever for insurance programs to have competitive pricing structures and for insurance providers to proactively monitor their WC programs.

HOW TO MAINTAIN FLEXIBILITY AND COMPETITIVENESS IN LONG-TERM CONTRACT RATING PLANS

With so many variables, determining accurate indemnity costs is extremely challenging. Even with a statistically significant set of reliable data anticipated to be predictive of future events, actuarial estimates are exactly that: estimates. Here are some of their insights into why insurance products fail – and how your organization can sidestep costly consequences.
