

# AI COMPLIANCE IN INSURANCE:

Clarity in a Rapidly Changing Landscape

+ + + + + +

+ + + + + +

AI is now part of everyday insurance operations. Regulators know it, and they're responding quickly. The NAIC Model Bulletin and a growing number of state bulletins set clear expectations, and compliance is no longer optional. Insurers must be able to show how AI is used, how it's managed, and how risks are controlled.

Staying current is a full-time job. Fortunately, it doesn't have to be *your* job.

## WHAT WE DO

### EDUCATE

We break down regulatory requirements in plain language, so your teams understand what's expected and why it matters. No buzzwords. No technical theatrics. Just practical guidance that helps you make informed decisions.

### ASSESS

We conduct straightforward evaluations of your current AI compliance profile, identifying what's working, where gaps exist, and what regulators will expect to see. Our assessments align with the NAIC Model Bulletin and state-specific requirements.

### ENSURE YOU STAY COMPLIANT

Using our **AI Compliance Tracker**, we maintain a single source of truth for all required documentation. This gives you clear visibility into what's complete, what's pending, and what needs attention, reducing risk and eliminating scattered or outdated evidence.

### FILL DOCUMENTATION GAPS

When gaps surface, we help close them. Perr&Knight maintains an extensive library of model documentation that can be adapted to support your compliance needs. This allows you to quickly strengthen areas where materials are incomplete or missing, without slowing down your operations.

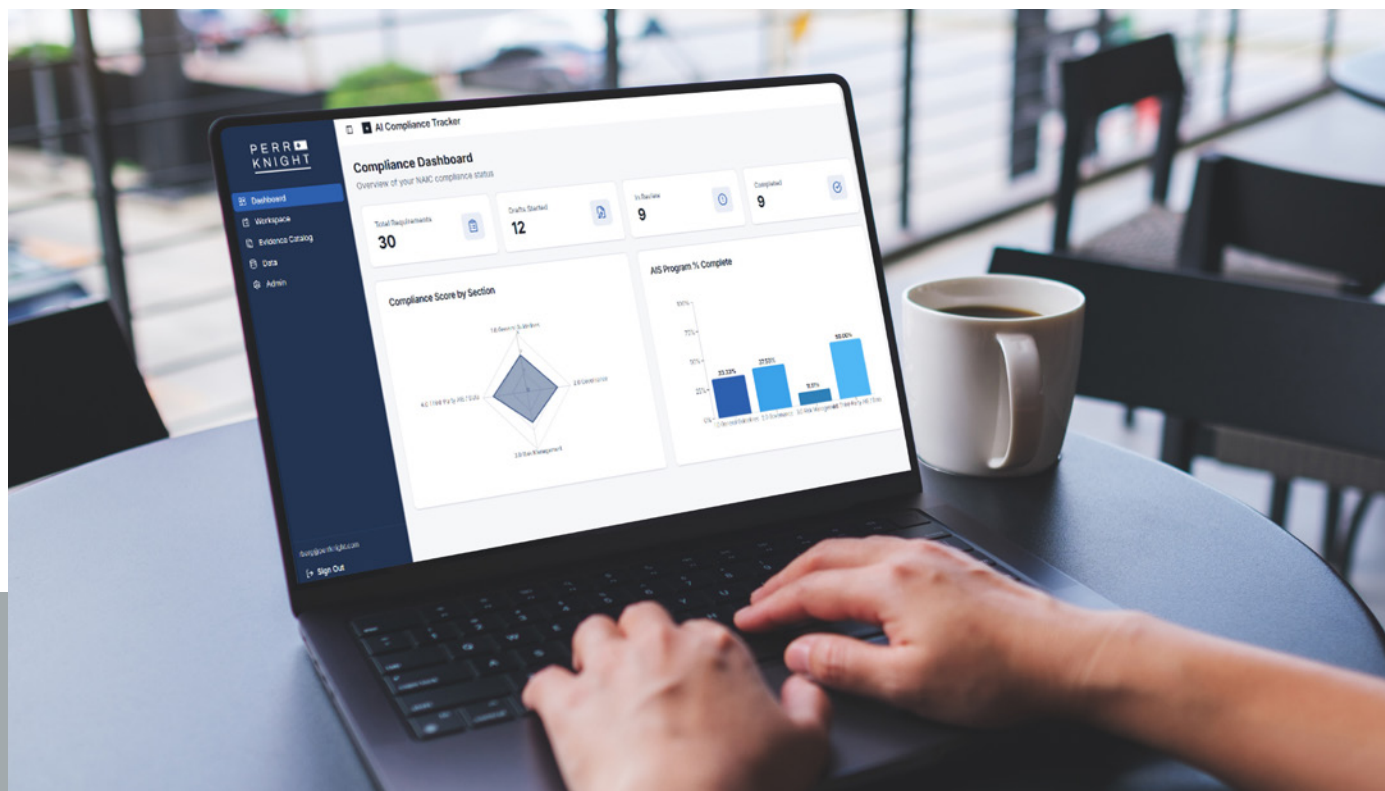

## WHY PERR&KNIGHT

We stay on top of every regulatory development so you don't have to. Our insurance focus, decades of regulatory experience, and practical approach help insurers respond confidently to examiner scrutiny while strengthening internal AI use.

Our work is built for real-world operations, not theoretical frameworks. You receive clear findings, workable recommendations, and ongoing support so your compliance program remains current as rules evolve.

## A SIMPLE NEXT STEP

If you want a clearer view of your AI compliance profile and assurances that your program can withstand regulatory review, let's talk. A short conversation can give you a clear sense of your current state and the work needed to stay ahead of regulatory expectations.

## ABOUT PERR&KNIGHT

For over 30 years, Perr&Knight has provided exemplary insurance consulting and software solutions to the property & casualty and life, accident & health industries. Services include actuarial consulting, risk strategies & solutions, applied AI consulting, product development, insurance policy and forms consulting, regulatory compliance, compliance and operational assessments/training, state filings, licensing, technology consulting, statistical reporting, data services, predictive analytics, and bureau monitoring & maintenance.
